COMPANY PRESENTATION
1.1 Company Profile

**Company History**

- **1950**: Established as JCC
- **1993**: The first overseas project
- **1995**: The first overseas EPC project; Established office in Algeria
- **2003**: Acquired Super Grade Qualification Certificate
- **2007**: Registered Company in Saudi Arabic, Established office in UAE, Qatar and Malaysia
- **2009**: Registered Capital: RMB 300 million, Obtained ISO 9001 Certificate

**Key Milestones**

- **1993**: The first overseas project
- **1995**: Obtained ISO 9001 Certificate
- **2003**: The first overseas EPC project; Established office in Algeria
- **2007**: Acquired Super Grade Qualification Certificate
- **2009**: Registered Capital: RMB 300 million, Obtained ISO 9001 Certificate
1.1 Company Profile

ISO 9001:2008

ISO 14001:2004
1.1 Company Profile
1.1 Company Profile

JCC has accomplished over 900 sets/units large and medium-scale of industrial plants and building works in 20 provinces in China.

JCC has completed more than 40 overseas projects in Singapore, Malaysia, Libya, Algeria, Sudan, Qatar, Saudi Arabia, Turkmenistan and Russia etc.
1.2 Global Organization

Regional Office
- Malaysia
- Saudi Arabia
- Qatar
- Algeria

Branch Company
- Saudi Arabia

Regional Office
- Dubai

Head Office

* Note: Manpower of sectors (Admin./ Marketing & Proposal / R&D / IT) assumes to remain constant while that of technical manpower (On-hand Work - Forecasted Work - Manpower Available) varies depending on job order received.
2. EXPERIENCES

2.1 Experience Record-Discipline
2.2 Experience Record-Overseas
2.3 Ongoing Projects
2.4 Brief of Typical Projects
2.1 Experience Record-Discipline

- PetroChina (Sichuan) 270*10^4 t/y VGO Hydrogenation Project (ongoing)
- PetroChina (Sichuan) 15*10^4 t/y Butadiene Unit, 9*10^4 t/y MTBE Unit, 4*10^4 t/y Butylene Unit & 90*10^4 t/y Aromatics Extraction Unit Project (ongoing)
- PetroChina (Jilin) 600*10^4 t/y Atmospheric & Vacuum Distillation Unit and Utilities (ongoing)
- PetroChina (Jilin) 70*10^4 t/y Catalytic Cracking Plant and Utilities (ongoing)
- PetroChina (Qingyang) 300*10^4 t/y Refinery Project (2010)
- PetroChina (Harbin) 60*10^4 t/y Continuous Reform Unit & 80*10^4 t/y Mid-Pressure Hydrogenation Upgrading Combined Unit Project (2009)
- PetroChina (Guangxi) 240*10^4 t/y Diesel Hydrogenation Plant (2009)
2.1 Experience Record-Discipline

- PetroChina (Guangxi) 250*10^4 t/y Naphtha Hydrogenation Plant & 300*10^4 t/y Light Hydrocarbon Recovery Plant (2009)
- PetroChina (Fushun) 240*10^4 t/y Delayed Cocking Plant (2009)
- PetroChina (Urumqi) 100*10^4 t/y Para-Xylene Aromatic Combined Unit (2008)
- PetroChina (Dushanzi) 300*10^4 t/y Straight-run Diesel Hydrogenation Plant (2008)
- PetroChina (Dushanzi) 8*10^4 m^3/h Hydrogen Production Plant (2007)
- PetroChina WEPEC 10*10^4 t/y Sulfur Recovery Unit (2007)
- PetroChina WEPEC 6*10^4 m^3/h Hydrogen Production Plant (2006)
- PetroChina WEPEC 27*10^4 t/y Sulfur Recovery Unit (2006)
- Algeria SBAA Field Production Facility Project (2006)
- Algeria Adrar 60*10^4 t/y Refinery EPC Project (2006)
- PetroChina (Guangxi) 10*10^4 t/y Gas Recovery Unit (2005)
2.1 Experience Record-Discipline

- PetroChina (Daqing) 120*10^4 t/y FDPE Project (ongoing)
- PetroChina (Sichuan) 21*10^4 t/y OXO Plant PC Project (ongoing)
- PetroChina (Sichuan) 30*10^4 t/y HDPE Project (ongoing)
- PetroChina (Fushun) 35*10^4 t/y HDPE Project (ongoing)
- PetroChina (Dushanzi) 60*10^4 t/y FDPE Project (2008)
- Liaoning Huajin Group 46*10^4 t/y Ethylene Expansion Project HDPE & PP Plant (2009)
- PetroChina (Lanzhou) 20*10^4 t/y Polyethylene Project (2006)
- CSPC Nanhai 25*10^4 t/y Polyethylene Project (2005)
- PetroChina (Daqing) 20*10^4 t/y Polyethylene Project (2005)
2.1 Experience Record-Discipline

- PetroChina HQCEC Prefabrication and erection of oil tank (4X100,000 m³) (2009.8-2010.2)
- PetroChina (Dalian) Prefabrication and erection of oil tank (2X100,000 m³) (2009.4-2009.8)
- PetroChina (Urumqi) Prefabrication and erection of oil tank (2X50,000 m³) (2009.1-2009.4)
- PetroChina (Jinzhou) Prefabrication and erection of oil tank (2X100,000 m³) (2008.10-2009.11)
- PetroChina (Dushanzi) Prefabrication and erection of oil tank (4X100,000 m³) (2008.4-2008.9)
2.1 Experience Record-Discipline

- PetroChina (Dushanzi) Prefabrication and erection of oil tank (2X100,000m³) (2007.6-2007.9)
- PetroChina (Urumqi) Prefabrication and erection of oil tank (2X50,000m³) (2007.5-2007.8)
- PetroChina (Jilin) Prefabrication and erection of oil tank (2X50,000m³) (2006.8-2007.8)
- PetroChina (Dushanzi) Prefabrication and erection of oil tank (1X100,000m³) (2006.4-2006.8)
- White Nile Petroleum Co., Sudan Prefabrication and erection of floating roof tank (3X50,000m³) (2005.2-2006.2)
- Qingdao Lidong Chemical Co. Ltd. Prefabrication and erection of oil tank (4X50,000m³) (2005.8-2006.10)

2.4 Brief of Typical Projects

LIBYA $16\times10^4$ t/y POLYETHYLENE PLANT

Client : Libya Rasco Oil & Gas Company
Main Contractor: HDEC
Location : Libya
Scope Of Work : All Mechanical Construction & Commissioning
2.4 Brief of Typical Projects

LIBYA NC41 OIL & GAS PLANT

Client: Sirte Oil Company
Main Contractor: HDEC
Location: Mellitah, Libya
Duration: Dec. 2003~ May 2005
Scope of Work: Erection and installation of process piping 240,000DIN
2.4 Brief of Typical Projects

LIBYA ATAS OIL & GAS PLANT

Client : Sirte Oil Company
Location : Attahaddy Gas Field, Lybia
Duration : Jan.2001~Jun. 2004
Main Contractor : HDEC
Scope of Work :
- Erection and installation of process piping: 300,000DIN
- Erection and installation of equipment: 7,483 tons
- Erection of steel structure: 2,106 tons
- Fireproofing: 1,084.5m²
2.4 Brief of Typical Projects

ALGERIA ADRAR 60*10^4t/y REFINERY

Client : SORALCHIN SPA
Location : Adrar, Algeria
Duration : Jun. 2004 ~ Apr. 2007
Scope of Work : EPCC Work

Consists of :
- Atmospheric Distillation Unit 600,000 t/a
- Gas Unit 50,000 t/a
- Catalytic Reforming Unit 100,000 t/a
- RFCC Unit 300,000 t/a
- Power Plant 3×6 MW
- Utilities

Major Products and Estimated Yields
- Propane 20,500 t/a
- Butane 32,200 t/a
- Regular Gasoline 208,300 t/a
- Premium Gasoline 10,000 t/a
- JET A-1 30,000 t/a
- Diesel 238,400 t/a
2.4 Brief of Typical Projects

SBAA FIELD PRODUCTION FACILITIES

Client : SORALCHIN-CNPC
Location : Adrar, Algeria
Duration : July 2006~ March 2007
Scope of Work : EPC
2.4 Brief of Typical Projects

OC-TOUAT SURFACE FACILITY PROJECT

Client: SONATRACH-CNPC (OC)
EPC Contractor: CPECC
Duration: Jan.2006 ~ Aug.2007
Scope of Work: General Construction of CPF&FPF(2)
2.4 Brief of Typical Projects

SKIKDA TOPPING CONDENSATE PROJECT

Client : SONATRACH
EPC Contractor : CPECC
Scope of Work : Construction for utility, offsite and tank work
2.4 Brief of Typical Projects

CAMP 3 RENOVATION AND CONSTRUCTION

Client : SONATRACH
EPC Contractor : IHI Corporation
Scope of Work : EPC of Camp 3 Renovation Construction
2.4 Brief of Typical Projects

INTEGRATION OF THREE NEW LPG TRAINS IN COMPLEX GP1Z-ARZEW PROJECT

Client : SONATRACH
Main Contractor: IHI Corporation
Duration : July. 2008~Feb. 2010
Scope of Work : Mechanical Erection, E&I Works
2.4 Brief of Typical Projects

**GNL 3Z PROJECT IN ARZEW**

- **Client**: SONATRACH
- **EPC Contractor**: Saipem
- **Duration**: April 2010 to Nov. 2011
- **Scope Of Work**: Mechanical Erection, E&I Works
2.4 Brief of Typical Projects

MENZEL LEDJMET EAST PROJECT (MLE)

Client : SONATRACH +FCP/ENI
EPC Contractor : Saipem
Scope Of Work : Mechanical Erection, Insulation, Painting, Electrical &Instrumentation Works
2.4 Brief of Typical Projects

SUDAN OIL CENTER PROCESSING FACILITY

Client : White Nile Petroleum Company
Main Contractor: Malaysia HL Engineering Co.
Scope of Work : All mechanical construction & Commissioning
2.4 Brief of Typical Projects

KHURAIS GAS CENTRAL FACILITY (KGC)

Client : Saudi Aramco
Main Contractor : HDEC
Scope of Work : STL/STR, U/G & A/G (Storage Area) Piping
2.4 Brief of Typical Projects

KAREN CPF PROJECT

Client : Saudi Aramco
Main Contractor : HDEC
Duration : Dec. 2009 ～ Apr. 2011
Scope of Work : Piping, Steel Structure, etc.
2.4 Brief of Typical Projects

QATAR NGL-4 PLANT

Client : Qatar Petroleum Company
Main Contractor: Snamprogetti & HDEC
Duration : Jul. 2001 ~ Apr. 2002
Scope of work : Installation of process piping 70,000DIN and steel structure 2,000 tons
2.4 Brief of Typical Projects

RAS LAFFAN C IWPP (INTEGRATE WATER POWER PLANT)

Client : Qatar Ras Girtas
Main Contractor : HDEC
Duration : Oct. 2008 ~ May 2010
Scope of work : Mechanical, Piping, Steel Structure, etc.
2.4 Brief of Typical Projects

FERTILIZER PLANT PROJECT

Client: QAFCO
Main Contractor: HDEC
Scope of work: Mechanical, Piping, Steel Structure, etc.
2.4 Brief of Typical Projects

SINGAPORE SAK STRUCTURE PROJECT

Client: Sumitomo Chemical Singapore Pte. Ltd.
Scope of Work: EPC works for the steel structure sector of this plant.
2.4 Brief of Typical Projects

MALAYSIA AROMATICS PROJECT

Main Contractor: TEC
Scope of Work : Erection and installation of process piping 220,000 DIN, Painting & steel structure erection
2.4 Brief of Typical Projects

TURKMENISTAN 9*10^4 t/y PP PROJECT

Client : Turkmenbashi Refinery
Main Contractor: JGC&HDEC
Duration : Jan. 1999 ~ July 2001
Scope of Work : All Construction Works except Civil and Instrument.

- Once-thru successful welding RT acceptance rate for piping 98.3% (400,000DIN)
- Once-thru successful welding RT acceptance rate for Spherical Tank 99.93%
- Three months ahead of schedule
- HDEC’s excellent overseas project
- National new record
2.4 Brief of Typical Projects

BLAGOVESCHENSK FUEL ALCOHOL PROJECT

Client : Blagoveshensk Fuel Alcohol Factory
Main Contractor: TEC
Scope of Work : Mechanical, Piping, Steel Structure, E&I.

Appraisal for Jilin Construction Company

Jilin Construction Company (JCC) has cooperated with BASF from July 1996 to June 1998 as the Construction Contractor for the 15,000 t/a NPG project in Jilin. JCC was responsible for the complete civil construction, equipment and piping installation and start-up assistance for the entire project. For the execution of the project, JCC has assigned a project team to the construction site consisting of 4 site managers headed by the Project Manager Mr. Li Macao and work staff up to 250 persons depending on the site progress.

During the course of the project, JCC has proved to be highly qualified to execute construction and installation based on international standards. Under the excellent leadership of the Project Manager and the full back-up of the JCC headquarter, the project was successfully completed one month earlier than originally scheduled and with 25% savings on the budgeted cost. The excellent quality of the construction and installation was confirmed during the one time uninterrupted start-up of the plant. The first on-spec product was received only 13 hours after first raw material feed, the full capacity of the plant was reached one week after start-up.

The construction and installation of the plant was based on the basic engineering from BASF. Due to the good cooperation with BASF and the experience of JCC’s management and construction staff, only a short attendance of BASF engineers on site in China was required. Special BASF standards were considered in detail. Airing problems were treated immediately and if necessary discussed with the owner. Permanent internal inspections of construction and installation work safeguarded the quality of the plant. Due to careful certification and strict internal control of their welders, the welding quality on the entire site excellent and could reach BASF standards. The excellent atmosphere on the construction and the good cooperation with the Engineering Contractor resulted in very fast treatment of revisions requested by the owner.

The extraordinary result of this project was mainly based on JCC’s excellent understanding of the responsibilities and duties of a Construction Contractor, always treating requests of the owner with highest priority. Based on the performance during the NPG project, JCC can’t be recommended as the Construction Contractor for any project in the chemical industry. BASF will be happy to have another chance for cooperation with JCC.

Sincerely yours,

BASF JOC Neopropylene Co. Ltd.
